WORK EXPERIENCE

2016 – PRESENT

Freelance Frontend Developer

CLUJ-NAPOCA, ROMANIA

- Developed various web projects, such as small e-commerce stores and other web apps.
- Designed logos, websites, product packaging for various small brands and people.
- Worked with a lot of different frontend related frameworks, libraries and tools and greatly expanded my knowledge in the field.

2015 – 2016

Frontend Developer

BLACK GOAT MEDIA, BAIA-MARE, ROMANIA

- Designed and developed web apps, such as Autoeconom, DentAlert and other projects.
- Worked closely with the backend team in order to ensure optimal results.
- Worked independently on smaller projects, using jQuery, Bootstrap, WordPress and Magento.

2014 – 2015

UI / UX Designer

QUICKMOBILE, BAIA-MARE, ROMANIA

- Was part of the design team responsible with the overall branding aspect of quickmobile.ro and soleshop.ro.
- Worked closely with the development team in order to ensure a great online experience for our customers.
- Designed the weekly newsletter, social media posts and various marketing campaigns.

PERSONAL PROJECTS

Markapp: virtual DOM library experiment;

Typomatic: small JavaScript library for creating a typing effect (with chainable events);

genes.css: functional / atomic CSS generator.
